

CHALLA GARDENS PRESCHOOL PHILOSOPHY STATEMENT

At Challa Gardens Preschool we believe that relationships have a significant effect on children's success in learning by building respectful and positive relationships with our families, with each other and with our children. We support the learning growth of each child in our centre.

Our goal is to ensure successful outcomes for each individual child in our care. We value the cultural diversity of our community and aim to engage our children in culturally responsive experiences.

We plan purposeful play and real life experiences, retaining play at the core of our curriculum. All children are valued and viewed as competent learners.

We believe that planned and unplanned experiences based on children's interest, ideas and input allows them to explore and discover and develop their understandings of the world. We engage children in sustainable living practices to support them to connect with and contribute to the world around them so that they become socially responsible and show respect for their environment.

We believe that all children have the right to learn in a safe, caring, supportive and inclusive environment which enables them to feel a sense of belonging.
